Subject: Student Achievement Review – Campus-Level Compliance Warning (Campus Closing)

Dear Dr. Rager:

The Council has reviewed your most recently submitted 2017 Campus Accountability Reports (CAR) and the reported campus-level placement rate of **30%** does not meet the Council's standard of 60%. The Council has also taken under consideration that the institution will be ceasing all instructional activity no later than **June 18, 2018**.

Council Action

Therefore, the Council acted to place the institution on **compliance warning** for the below-standard results for 2017, through the cessation of academic activity. In the interim, the institution is required to submit updates on the progression of current enrollments. These updates, including Part II of the Campus Closure Application, are to be uploaded to the preexisting campus closure application in the Member Center and indicate, by student, those that will complete prior to June 18, 2018; those that will transfer elsewhere; and those that are choosing not to complete their programs. The institution must also provide any executed teach-out agreements for the Council's review and approval.

Failure to follow the Council's directive may result in the suspension or revocation of your institution's grant of accreditation. If you have any questions about this action, please contact Ms. Perliter Walters-Gilliam at pwgilliam@acics.org or 202-336-6769 if you have any questions.

Sincerely,

Michelle Edwards
